**ITALIAN
SMART DESIGN**
SINCE 1923

Calligaris, 92 years of smart design

Having always worked with passion and dedication, ninety-two years are a milestone we are very proud to have reached. We are tenacious in finding advanced and functional technical solutions, uncompromising in the quality of materials and workmanship, creative in designing contemporary and elegant shapes and finishes, ready to fill homes around the world.

We take pride in our long history as leaders and creators of affordable furniture, our success so far shows that the path we undertook in 1923 is still the right one. At Calligaris we continue to view the way we live as an ever-evolving process, in which function and emotion come together in perfect harmony and where one can live comfortably, surrounded by personal possessions.

We continue this journey by constantly imagining cosy, liveable spaces - spaces able to communicate the personality of those who live there. Our task, what we have always loved to do, is to design products that are intelligent as well as beautiful. We look at the smallest details to give our furniture surprising technical features - which we define as smart details: mechanisms which are both innovative and simple, that turn a coffee table into a large dining table or a sofa into the ultimate spot for relaxation. We experiment with materials and colours to make endless combinations which are forward thinking, leaving you the possibility to free your imagination and create unique spaces.

Calligaris' ability to "look forward" has always been one of our most valuable assets. This spirit is now embodied in the **CODE** project, a collection of complements and accessories created by young Italian designers, with the idea of nourishing the precious and rare bond between creativity and production processes.

Each one of these designers has offered a personal and creative interpretation of smartness, translating this concept in objects brimming with colour and energy.

All the **CODE** items, which are obviously part of the Calligaris world, blend perfectly in our style, with a creative and suggestive mix of harmonious or contrasting effects.

Ninety-two years of smart design and so much more to say.

CONTEMPORARY CLASSIC

SMART LIFESTYLE

Your style, one choice

Gone are the days when furnishing the home opened endless debates on what style to choose; today it is an ever more creative process, allowing you to inject some personality into each piece.

Nowadays, it is no longer unusual to see a modern, colourful chair next to a more formal dark wooden table or a classic-style sofa combined with a contemporary rug, now more than ever it is acceptable to mix and match freely. It is by injecting personal touches that the homes we love come to life, where everyone is allowed to express their personality.

We like to think we give our customers everything they need, from tables, chairs, sofas, beds, bookcases, cabinets, lamps, to accessories – all the elements to create and personalise their spaces.

We decided to bring our furniture to the real homes, with their style and story, and to re-invent these spaces, mixing and matching our collections to create two main décor styles: **CONTEMPORARY CLASSIC** and **SMART LIFESTYLE**.

Whereas the **CONTEMPORARY CLASSIC** home features a very clean and timeless look with an elegant and refined warmth, our **SMART LIFESTYLE** balances linear furniture and complements with ironic and extravagant accessories, offering always functional and eye-pleasing solutions.

Be inspired by both worlds and feel free to mix styles.

The results will be surprising.

The strength of our products is that each piece is an instrument of your creativity.

When it comes to furnishing, we believe that the only rules that count are quality and innovation, values which Calligaris has always invested in.

Visit calligaris.com, discover the complete furniture range and the endless product configurations. Be inspired by the colours, materials and textures which best reflect your style. Then, all you have to do is select the right size tables and sideboards to furnish your home. There is only one, simple choice. Calligaris.

LIVING

TODAY THE LIVING AREA IS A MULTI-FUNCTIONAL SPACE, WHERE EVERYONE COMES TOGETHER TO SHARE MEALS, PLAY GAMES, SPEND TIME WITH FRIENDS OR ENJOY INTIMATE FAMILY MOMENTS.

The living room is perhaps the area that has changed most to suit the needs of its occupants, from a more formal room to a shared space. With the increase in open-plan living, the living room has become an all encompassing environment for every activity. This does not mean the living room cannot have its own clearly defined role; on the contrary, the contemporary living room manages to integrate furniture that makes it unique and functional. Elegant touches are mixed with everyday objects; soft materials add warmth to the room and fine details stand out all complementing one another.

Contemporary furniture shakes up classic environments by bringing together different finishes and delicate hues. The house of your dreams suddenly becomes real with an harmonious combination of dark wood, white leather and see-through materials. High ceilings, drapes and creamy walls set the perfect stage for elegant furniture sets, masterfully combined in timeless and spaceless environments.

From a distance, Calligaris sofas look beautiful, but it is when they are viewed up close, that they show off their best qualities. Design for us is the result of a relentless pursuit of details that make a difference. The collaboration with Bernhardt and Vella, for

example, has produced Urban, an elegant, simple and fashionable sectional sofa with a sober, rational and contemporary look. The thin and curved armrest supporting the sofa, is conceived almost like a tailored piece, with a refined seam which emphasizes its design.

Today, the living room is not designed to be a stuffy or formal environment, but a welcoming haven, offering genuine insight into the homeowners. Objects and accessories, seemingly out of place, complementing the furniture can transform your space according to your needs at different times of day. Exquisitely chosen objects add personal touches to simple rooms elevating them to modern spaces showcasing collections of curiosities, where family and life mementos, travel souvenirs, vintage finds and contemporary furniture come together to create a unified space. The freedom our furniture gives means that you can grow with it and adapt it to whatever stage of life you are at.

CREATE YOUR OWN SOFA!

Our wide range of sofa compositions is capable of meeting any aesthetic and space requirement. Available with leather and fabric coverings, in various colours and textures.

For more details, visit our website calligaris.com

The art of making sofas

A SOFA IS MUCH MORE THAN A SIMPLE PIECE OF UPHOLSTERED FURNITURE. IT IS A NEST, A REFUGE, A PLACE FOR ENCOUNTERS, THE RELAXATION AREA OF YOUR HOME. IT IS FOR THIS REASON, WE TAKE EVERY CARE IN DESIGNING AND CONSTRUCTING OUR SOFAS, SO YOU ENJOY EVERY MINUTE YOU SPEND ON THEM.

A comfortable and cosy sofa has the power to soften a tough day or, at the very least, offer shelter and comfort. Our sofas are designed to pamper you and make you feel comfortable, but also for durability and to fit gracefully into any environment. We have put all our experience into crafting a range of sofas that can satisfy every decorating style and use. Today, our sofas are ready to inspire your imagination, by providing infinite combinations, great quality materials, an extensive palette of rich colours, as well as of course, durability. Classic or contemporary, standalone, with an adjustable backrest, sofas with concealed drawers, in leather or fabric ... you can see all this by flicking through the catalogue or visiting our website. What you do not see, however, is the care we devote to every single detail, an attention that makes the difference between a mass-produced product and a product made to perfection. We choose the best materials; those that offer perfect comfort and guarantee life-long use.

— THE QUALITY OF OUR FURNITURE LIES IN THE DETAILS OF EACH PIECE —

The fabrics we have selected for you are irresistible to touch, resistant to stains and maintain their colours even after years of use. Textures and contemporary shades allow you to offset small details to create your own style. The stitching is given particular care, to increase the aesthetic appeal of our sofas. The padding is filled to perfection, to give you seats and cushions that are comfortable and easy to maintain. If you love leather, rest assured we offer only the best, so that it is appealing to the touch and flawless in terms of uniformity of colour. In addition, we offer invisible mechanisms that are easy to use, and which increase the versatility of our sofas and your comfort.

AS YOU LIKE IT

To satisfy your desire for uniqueness, all of our sofas can be customised. The sizes and combinations are numerous, so you can create the ideal sofa for your space. Choose the design and size you like, tell us if you want it in fabric or leather, whether you want a headrest or an adjustable backrest and look at the colour chart to select the one that suits you. We will create a tailor-made sofa for you, looking after it every step of the way, from production to assembly, making sure that every detail meets our quality standards. This is how we like to work.

Armchairs

THE ARMCHAIR IS A HIDEAWAY, A PERSONAL SPACE FROM WHICH TO OBSERVE AND TAKE IN THE EBB AND FLOW OF LIFE. THE DISTINCTIVE FORMS, FUNCTIONS, AND COLOURS HELP SHAPE AND FORM THE SPACE IN WHICH THEY ARE PLACED.

NEW ENTRY

Lazy

- WHAT IS IT? -

A versatile curvy armchair with a broad comfortable seat, perfect for your living area and for your relaxing moments.

- DESIGN -

Designed by **Michele Menescardi**, Lazy's winding lines recall nordic atmospheres. With its exceptionally comfortable seat cushion, lumbar support and matching footrest, you will definitely want to relax in this armchair. Two bases are available: wood for a more materic feel and metal for a minimalistic and easy look.

- MATERIALS -

The shell and seat cushion are moulded with cold pour polyurethane foam, the lumbar support cushion is filled with mixed feathers. Leather and fabric coverings available in various colours; choice of metal or wood for the base.

- LOOK -

Lazy strikes for the harmonious balance between the solidity of wood and the softness of fabric. The metal base, with its lightweight appearance, is perfect even for contract projects.

NEW ENTRY

Mag Wood

- WHAT IS IT? -

A clean-cut sideboard which can dominate the look of your living room: an elegant piece with an incredible storage capacity.

- DESIGN -

A tribute to wood, its vitality and its fascinating patterns. The linear design and refined personality of this piece offers a true sensory experience.

- MATERIALS -

Frame, doors and top in veneered wood, with smoke and natural finishes. The push-pull doors are equipped with magnets, each internal compartment includes a glass shelf. Available in different sizes.

- LOOK -

A furnishing solution which dominates the living area with the strength of its elegance. The essential lines of Mag wood shift all the attention to the material texture of wood.

Large cupboards

PERFECT FOR DISHES, VASES, KNICK-KNACKS AND MUCH MORE, THESE CUPBOARDS HAVE ROOM FOR EVERYTHING AND FIT FLAWLESSLY INTO ANY ROOM THANKS TO THEIR MODERN DESIGN, COLOUR AND FINISH COMBINATIONS.

NEW ENTRY

Tweet

- WHAT IS IT? -

A chameleonic small table featuring two irregular, overlapping, floating tops. The combination of multiple finishes and colours can shake up the look of a static living room.

- DESIGN -

The rounded, fluid lines recall a retro style, while the natural and smoke matt finishes provide a distinctive contemporary accent. The selection of colours can suit any style. Designed by **Gino Carollo**.

**- MATERIALS -**

Matt black or optic white metal frame. Choice of veneered MDF tops – dark-toned “smoke” and light-toned “natural” or matt lacquered – white, mustard yellow and nougat.

- LOOK -

As contemporary evolution of the 60^s side table, this piece offers “multilevel” support.

Multilevel coffee tables

FUNCTIONALITY IS KEY FOR CALLIGARIS, WE KNOW THAT TODAY'S HOMES NEED FLEXIBLE AND PRACTICAL FURNITURE SOLUTIONS. WITH THIS IN MIND, OUR MULTI-LAYERED TABLES OFFER A VERSATILE SURFACE THAT CAN BE TRANSFORMED INTO A PRACTICAL COFFEE TABLE, AN INSTANT DESK OR WHATEVER YOU NEED AT THAT MOMENT.

HALL

GIVE YOUR HOME THE ENTRANCE IT DESERVES

The entrance today is seen as an integral part of the home and is no longer a nondescript transit area. The entrance is the passage to the home and the first room you and your guests visit, therefore it is important that it receives the same level of thought as the rest. Simple design touches can bring the entrance to life. Furnish it with a few select design pieces to brighten it up, or make it cosy with the use of colour or a soft carpet and create the welcoming effect you desire. At Calligaris we want to give every area of the home the care and attention it deserves. We have created solutions that adapt to the space and style of each home. Small tables on which you can place a stylish lamp, a striking coat stand, a vase with flowers or a mirror on the wall can all help to personalise this area.

DINING

ING

EACH PERSON HAS A SPECIAL PLACE WITHIN THE HOME WHERE THEY CAN STUDY, COOK, WATCH TV, MAKE PHONE CALLS, BUT THERE IS ONE AREA WHERE EVERYONE IS BROUGHT TOGETHER – THE DINING ROOM. IT IS HERE THAT YOU CAN ENJOY FOOD AND SHARE EXCITING NEWS FROM THE DAY'S EVENTS, MAKING THE DINING TABLE AN INTEGRAL PIECE IN ANY HOME.

Our distinctive table designs and dynamic extension systems have the ability to transform a simple table into a striking piece of design. The clean lines, contemporary designs and versatility of our tables mean that they fit into any home environment. The Omnia table is an example of our style and ingenuity: the clean cut look is given by the contrast between the very thin, almost fluctuating top and the moulded and shaped legs. This versatile table, available in different sizes and combinations, is a surprising dining room game changer.

DINING

Like many tables designed by Calligaris, Lam is another must-have! Available in the fixed and extendible versions, this table combines two very different materials, wood and metal, highlighting their technical and aesthetic qualities.

Whereas a metal sheet is moulded, folded and welded to form the structural elements, wood is used to finish the top surface and evoke warm and pleasant sensations with its natural texture. Dealing with unexpected guests?

No problem, there is room for everyone around this extendible table. With Lam's innovative design, choosing the right chairs is also fun. There are no limits or restrictions: you can go from total colour to transparent hues or even opt for a mix of styles and materials.

-

The dining table should be the centre piece of the dining room. Contemporary design and combinations of materials can create a refined setting.

Showcasing Italian design and technology at its best, Orbital is a striking piece that will make a statement in any home.

The glass top rests on a futuristic stand, reflecting sculptural influences, creating elegant reflections in the room.

The exceptional design of the Orbital table, created by Pininfarina, means it has the ability to extend, making room for up to ten people. The smart opening mechanism is discretely hidden within the artistic sculpture.

— NATURE-INSPIRED SHAPES AND SHARP
EDGE GEOMETRIES COME TOGETHER IN
PERFECT HARMONY —

Designed by Stephen Burks, Frame is the ideal table for those who love one-of-a-kind modern furniture. The light-weight steel frame criss-crosses underneath the glass surface. This pattern recalls the broad and comfortable diamond mesh backrest of the Gamera chair. In this perfect composition, the Pom Pom suspension and table lamps add a touch of life, bringing to mind the natural evolutions of certain exotic plants.

Tables

WHETHER YOU LOVE ORDER OR HAVE SURRENDERED TO CHAOS, THE TABLE WILL OFFER A MOMENT OF RESPITE FROM THE COMING & GOING OF DAILY LIFE.

A birds-eye view illustrates the table as the centre point of the home. It is here where people come together to relax, enjoy good food and good company. Mixing traditional and eclectic styles, this table and chair combination creates an enchanting look, inviting guests and family to gather around the table. Striking surfaces and innovative lines are key elements that can be seen throughout our unlimited range of tables. With a range of options including extendable solutions, Calligaris has a table to fit any room type.

Variable surfaces

TABLES THAT TRANSFORM, MOVING SURFACES AND INVISIBLE MECHANISMS ARE ALL KEY ELEMENTS WITHIN THE CALLIGARIS TABLE COLLECTION.

Romantic dinner for two? Dinner party for ten? Flexibility is essential in modern life, so we have created tables capable of adapting to your needs. Produced to the highest standard, our collection offers a variety of materials, including wood, metal and glass, and numerous colours and finishes are available to create striking combinations.

Durable surfaces, so beautiful they deserve not to be hidden by a tablecloth, innovative lines that blend in with the rest of the decor, intricate details that make a difference, an unlimited range of variations and above all the functional element are just some of the strengths of our tables.

— THE WARMTH
OF WOOD —

— THE VERSATILITY
OF LAMINATE —

— THE STRENGTH
OF CERAMICS —

— THE ELEGANCE
OF GLASS —

Calligaris offers a varied choice of materials. The combinations are endless - wood creates a warm environment, metal suggests a modern yet classic look, and glass creates a contemporary atmosphere.

The assembly of each piece is created with fine attention to detail, allowing each table to operate with ease. All materials and components meet a high standard of quality, making every table durable and timeless.

Indestructible ceramic materials

The unique ceramics used by Calligaris for its table tops are obtained by coupling a 3 mm thick slab of porcelain stoneware to an 8mm tempered float glass. These surfaces are exceptionally resistant to scratches, impacts, stains, thermal shocks and chemicals. As they don't absorb liquids nor release harmful substances, they are also easy to clean and very hygienic. The Calligaris ceramic finishes include: white, stone grey, nougat and lead grey.

Extending tables

01

02

04

03

Ready for anything is how we define our extending tables. Adaptability is key to the modern way of life, and Calligaris' extending tables are created with that philosophy in mind. Effortless, the extendable table mechanism allows for six additional seats. Flawless in design, the extension leaf connections are seamless, creating a smooth and beautiful surface.

NEW ENTRY

Lam

- WHAT IS IT? -

Available in the fixed and extendible versions, Lam features pure lines, a metal frame and wooden details. The extending mechanism is integrated in and hidden under the top, the legs are always external.

- DESIGN -

Designer team Busetti Garuti Redaelli wanted a bold design for this table. The uniqueness of Lam is given by the unexpected combination of wood and metal. The wooden top is an invitation to a unique sensorial experience, whereas the moulded and folded metal acts as a contrasting, structural element.

**- MATERIALS -**

The wooden veneered top and internal side of the legs are available in Smoke, Grey or Natural finishes. The external sides of the legs, in fixed combination, come in matt black, grey and optical white metal.

- LOOK -

The angled legs and the combination of two materials allow several interpretations of this table, depending on the viewpoint. Suitable both for the dining room and the office.

Simply contemporary

A design created to last the test of time, blends harmoniously and creates contemporary and functional environments.

Dot

- WHAT IS IT? -

Lightweight and minimalistic, fixed or extendible, this table is ideal for any kind of kitchen. Its melamine top and metal legs match with several metal, wooden or polypropylene chairs.

- DESIGN -

With its rectangular top, metal frame and L-shaped leg, this table synthesizes a lightweight look and a sophisticated style. Designed by **Gino Carollo**.

**- MATERIALS -**

The melamine top is available in a broad range of finishes, like multi-stripe and deco, which feature very realistic wood vein textures.

The matching extension is stored under the top and is positioned manually. Frame and legs are made of folded and varnished metal.

- LOOK -

Practical and handy, this table will find its rightful place in any kitchen. Perfect for family meals, romantic dinners or simply as worktop.

Space Invaders

Distinct metal profiles, reflective surfaces and cutting-edge mechanisms join together to create a strong table with an influential presence.

NEW ENTRY

Frame

- WHAT IS IT? -

Frame is an exercise in composure conceived by an otherwise very expressive and eclectic designer. With this table, **Stephen Burks** shows his most structuralist side by inventing what will become a modern classic in living room furnishing.

- DESIGN -

The lightweight steel frame criss-crosses with different proportions under the glass surface. Partly inspired by Mies and partly by Giò Ponti, Frame table combines Burk's most important sources of inspiration, thus becoming the piece of furniture that any house should have, an object which fits easily in any environment.

- MATERIALS -

The extra-white opal or smoke grey glass tops reveal the underlying diamond shaped metal frame, varnished in optical white or matt black.

- LOOK -

An eternal, surprising, modern classic, which fits in any environment. More discrete in the square version, absolute star of the room in the larger rectangular size.

The resistance of wood

Since 1923, wood has been a vital material for Calligaris. The types of wood used in our tables are sturdy and durable, and the end looks created are charming and timeless.

The essence of beauty

Wood offers endless possibilities to create fascinating shapes that can be made even more alluring by the warmth of its natural shade. And it can be combined with other materials, such as plastic, metal or leather, to create a unique and contemporary look.

NEW ENTRY

Gamera

- WHAT IS IT? -

An “armoured”, indestructible chair like the homonymous Japanese movie icon: Gamera, the invincible giant turtle, guardian of the universe, brave friend of all children.

- DESIGN -

Conceived with a passionate style by **Dondoli and Pucci**, this highly visual chair is already a modern classic with exceptional technical features.

**- MATERIALS -**

This high performance, reinforced nylon monoshell, is stackable and suitable both for outdoor and indoor use. Available in seven different colours

- LOOK -

Thanks to the manufacturing technique, the chosen materials and the sinuous lines, this chair stands out for its remarkable shape and lightweight. The broad yet snug backrest, which recalls a turtle shell, offers the most ergonomic position.

NEW ENTRY

MS4

- WHAT IS IT? -

Unique in its category, this compact plastic chair features an extremely clean and essential look and an unexpectedly flexible seat.

- DESIGN -

Masterfully conceived by **Marc Sadler**, MS4 is anything but extravagant and unusual. However it does conceal a unique feature: the honeycomb surface of the seat hides a complex, underlying structure which offers an extraordinary cushion-like comfort.

**- MATERIALS -**

MS4 is a monobloc chair moulded by injecting a thermoplastic material. Sober in its look and surprisingly comfortable, this chair is stackable and suitable even for outdoor use.

- LOOK -

A linear, simple and elegant chair, a product of very complex manufacturing processes, which associates the stability of legs and backrest to the flexibility of the seat. All with one material!

NEW ENTRY

Web

- WHAT IS IT? -

This chair easily fits into any domestic or working environment, offering personalized solutions for any need. Web's ambition is to bring design closer to the people.

- DESIGN -

Designed by **Dondoli and Pocci**, this creative and mediterranean chair features functional design, attention for the details and an incredible versatility, with the possibility of combining the colours of frame, handle and cover.

**- MATERIALS -**

The matt metal frame comes in five colours and so does the breathable and washable mesh fabric. Eight colours are instead available for the varnished metal handle positioned on the backrest.

- LOOK -

Have fun choosing your favourite combinations: change Web's personality by playing around with all the available colours.

Soft, so soft

Whether blended with the precision of chrome or gentler painted metal to match, with comfortable soft seating and backrests you can let yourself go.

NEW ENTRY

Sami

- WHAT IS IT? -

With its padded shell, Sami recalls remotely vintage atmospheres, but reinvents them completely.

**- DESIGN -**

The main feature of this chair is a soft quilted padding, with an hexagonal pattern, and sophisticated contrast cross-stitch seams around the edges. The 100% cotton cover features stain-resistant and antibacterial treatments.

- MATERIALS -

Hardwood ash or beech legs, padded multilayer shell, upholstered with fabric or Gummy, a soft and washable synthetic material.

- LOOK -

Sami fits perfectly in any dining area or adds a touch of class to any home-office table.

The pleasure of leather

Timeless chairs combine the sturdiness of leather with thin and rigorous metal shapes. Unmistakably stylish and beautiful, these models naturally complement our collection of dining and home-office tables.

The making of a chair

CHAIR: N. [PL. -S] A PIECE OF FURNITURE ON WHICH ONE SITS, CONSISTING OF A HORIZONTAL SURFACE RESTING ON FOUR LEGS, AND WITH A BACKREST. **UPHOLSTERED CHAIR:** HAVING A SEAT AND BACKREST COVERED WITH FABRIC OR LEATHER. **GARDEN CHAIR:** IN PAINTED IRON OR CANE WITH A STRAW SEAT IN THE EMPIRE STYLE

— THE MAROCCA,
THE FIRST CHAIR
EVER PRODUCED
BY CALLIGARIS —

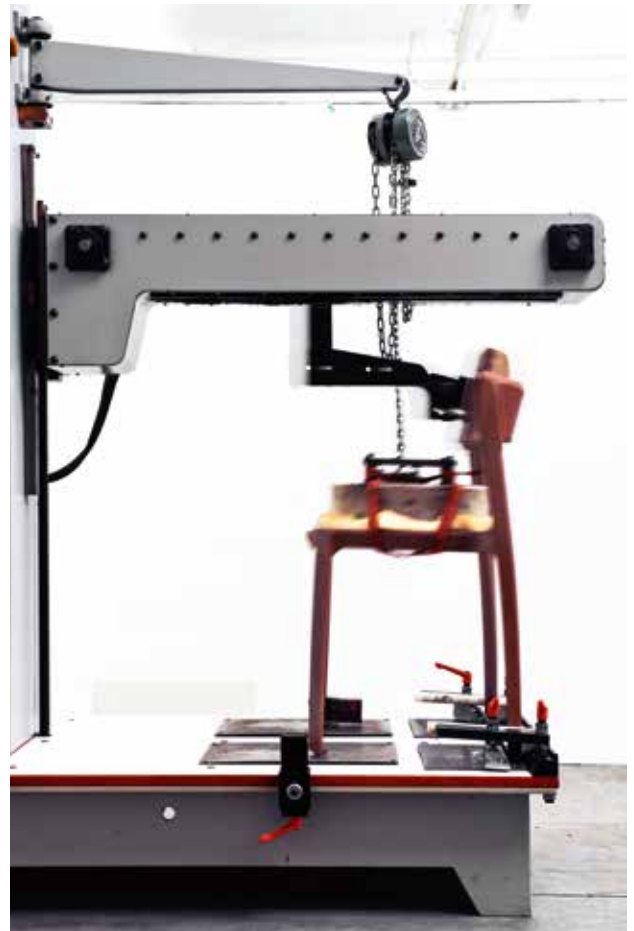

There is no single definition that manages to explain what a chair really is. For ninety-two years we have been dealing with chairs and we are as passionate as ever about this object, from its humble origins it has taken on an increasingly important role in contemporary living.

The name Calligaris goes hand in hand with the history of the chair, from the time when Antonio Calligaris started his workshop in Manzano, Friuli to produce the legendary “Marocca” – with its curved legs and straw seat, which were typical of the area.

Since then we have come a long way, but we have never stopped to think of the chair as a work of art, and continue to dedicate ourselves to it with enthusiasm.

In designing our chairs, a collection that now includes a multitude of models and varieties, we take care over every detail – from design to the quality of material. Every element is the result of teamwork, involving expert planners and designers. Our technical know-how and inventiveness, combined

with knowledge for furniture trends produces extraordinary results. Designers help contribute to the development of new models with their creativity. Ideas that are generated from this collaboration are transformed into prototypes, and then, at the end of a long process of testing and fine-tuning, into products that appear in homes around the world. The aesthetics go hand in hand with ergonomics; a chair is first and foremost a piece of furniture that must offer the right support and guarantee safety. The choice of materials is just as crucial; we are obsessed with quality and want to ensure the material we use is safe and sturdy, as well as beautiful.

As a result, we select the best wood, and work with leading companies with the latest generation of plastics to develop innovative materials that, along with comfort and aesthetics, also allow us to craft special finishes and obtain new colours. We carefully choose fabrics and leathers, selecting those that will last long and match contemporary tastes that communicate Italian style to the world. We work with metal, bending it to the new shapes we imagine. Our collection summarises style and design in chairs. From classic and elegant to easy-going and fun models, the Calligaris range caters for every need and choice.

SLEEPING

TO SLEEP, TO DREAM... TO ALLOW YOURSELF TO DROP OFF INTO A LONG RESTFUL SLEEP OR ALLOW YOURSELF A SHORT REST. THE BEDROOM IS THE MOST INTIMATE PLACE IN THE HOME, A SPACE THAT REPRESENTS MORE THAN ANY OTHER THE PERSONALITY OF ITS INHABITANTS.

Closing the bedroom door behind you allows you to enter a world where everything has been carefully chosen for a specific purpose: to make you feel at home. The beds in our collection are developed from the desire to provide a centre of well-being to reflect the personality and taste of those who sleep within. To achieve this, the collection includes beds in fabric and leather that are available in contemporary shapes and a variety of colours to meet every taste. Our beds also come in a storage version that provide extra space for storing blankets and pillows that is easily accessible.

WORKING

WORKSPACES HAVE CHANGED RADICALLY. THEY ARE NO LONGER AUSTERE OFFICES LIKE PRISONS; FREEDOM HAS BEEN GIVEN TO SPACES WHERE DESIGN MEETS FUNCTIONALITY. LIGHT AND COLOUR ENLIVEN THE ENVIRONMENT WHERE EVERYTHING FINDS ITS PLACE

Working in a pleasant, well-decorated and well lit environment helps you to concentrate and perform to the best of your ability. Our solutions for workspaces take into account functionality and aesthetics. In addition to tables and consoles with clean, elegant lines, and chairs that add a touch of creativity to the environment, we also offer a selection of shelves and accessories help keep your papers, documents and stationery in perfect order. Lighting completes our offering, allowing you to use space to meet everyone's needs. Together these elements allow warmth and imagination to enter the workplace.

Confidence and competence are important qualities you would want to experience in an office atmosphere or convey to your clients. Attention to detail, temperance of colour and use of subtle materials combine to create a work setting with the right environment, without it feeling cold. Our furniture, and the combinations they are available in, are ideal for furnishing office space in a way that expresses professionalism and warmth in a pleasant atmosphere.

NEW ENTRY

Layers

- WHAT IS IT? -

This modern writing table alternates shapes and colours, creating an unusual geometric interplay

- DESIGN -

Designed by **Gino Carollo**, Layers is a three-dimensional desk. Its seemingly floating surfaces, each with a specific function, combine asymmetrically, producing a strong visual impact.

- MATERIALS -

The metal frame is varnished and the wooden top is veneered. The contrasting colours and finishes of table top, shelf and drawer contribute to the strong personality of this desk. The shelf and drawer are fixed asymmetrically to the top by means of an underlying metal frame.

- LOOK -

The identity of each component is defined by the use of different finishes. With the integration of multilevel surfaces, Layers is both lightweight and practical.

-
- 01. Match**, wooden desk. Lacquered wood shelf and lacquered MDF drawer
W130 D65 H75 / W51 1/4" D25 5/8" H29 5/8"

NEW ENTRY

Match

- WHAT IS IT? -

Match desk is the new entry in our collection of tables and mirrors featuring curvy shapes, rounded corners and bevelled edges.

- DESIGN -

Designed by **Gino Carollo**, this table is a tribute to the 60s. The contrasting finishes and colours of the central shelf and drawer contribute to the strong personality of this desk.

- MATERIALS -

Wooden veneered top, ash hardwood legs, smoke or natural finishes. Central lacquered wooden shelf and drawer, available in white, mustard or nougat matt finish.

- LOOK -

Match is perfect for your home office. With its many colour combinations, it is perfect both for kids rooms and for more sober environments.

OUTDOOR

SMART IDEAS FOR LIFE IN THE GARDEN

Whether it's a large garden, a terrace, or a small balcony, it's lovely to be able to create an area to sit back, eat, drink, and enjoy the flowers in bloom. In order to do so, Calligaris has created a range that can be used outside without fear of the weather taking affect. Tables, chairs and informal seats to create special spaces from which to enjoy the beauty of the outdoors.

GOOD

CODE AS COMPLEMENTS DESIGN,
A SET OF PRODUCTS THAT STEM FROM
THE SAME MATRIX. AN EXPRESSION
OF CALLIGARIS' SMART ATTITUDE,
INVOLVING YOUNG ITALIAN DESIGNERS
TO INVENT EXTRA-ORDINARY, SURPRISING
AND IRONIC FURNITURE COMPONENTS.

CODE IS THE CAPSULE COLLECTION CONCEIVED BY CALLIGARIS AS AN EXTENSION OF ITS RANGE TO THE WORLD OF FURNITURE ACCESSORIES. A PROJECT THAT MIRRORS THE NATURAL EVOLUTION OF THE BRAND, EVER MORE AWARE OF THE NEW CONSUMERS AND INTERNATIONAL TRENDS. A PLATFORM THAT BECOMES A FIELD OF PLAY AND EXPERIMENTATION FOR EMERGING DESIGNERS, WHO ARE INVITED TO INFUSE THEIR FRESH AND COLOURFUL VISION INTO THE PRODUCT. A SIGNIFICANT OPPORTUNITY OF GROWTH, A WAY TO "LOOK AHEAD" BY SUPPORTING THE DIALOGUE BETWEEN CREATIVITY AND PRODUCTION LOGIC. ADDRESSED TO THE PROFESSIONAL DESIGNERS OF THE FUTURE, CALLED ON TO INTERPRET CALLIGARIS' SMART THINKING THROUGH THEIR ENERGY AND INVENTIVENESS.

POM POM
DESIGN: MATTEO CIBIC

Inspired by the botanical study of exotic plants, these lamps feature illuminating glass globes which blend in naturally and harmoniously with the metal structure. The floor and table lamps rest on a cement base.

SEXTANS
DESIGN: MR SMITH STUDIO

— The Sextans lamp, already a best-seller, returns in the table version conquering new areas of the house with its pure forms and minimalist design. A must-have!

TENDER
DESIGN: BUSETTI GARUTI
REDAELLI

— Ironic and multi-functional, the Tender tables will be the perfect complement for a modern living room or a modern and functional bedroom, with the cable glands integrated within the metal structure painted in the most modern colours.

BIG WAVE
DESIGN: MICHELE MENESCARDI

— Important dimensions, harmonious shapes and great personality for the Big Wave lamp, the XXL version of the classic abat-jour, popular for its irreverent approach to one of the great classics of the home.

KIOO
DESIGN: MATTEO CIBIC

— The nineteenth century mirror revisited in contemporary style: simple shapes and minimal details. Characterised by a chromed steel knob that makes it easy to adjust the mirror.

BUMPER
DESIGN: BUSETTI GARUTI REDAELLI

— Shelf, wall pocket, hanger... how many functions can such a compact item have? Bumper will be the passe-partout, irreverent and young, with its wide palette of matt colours.

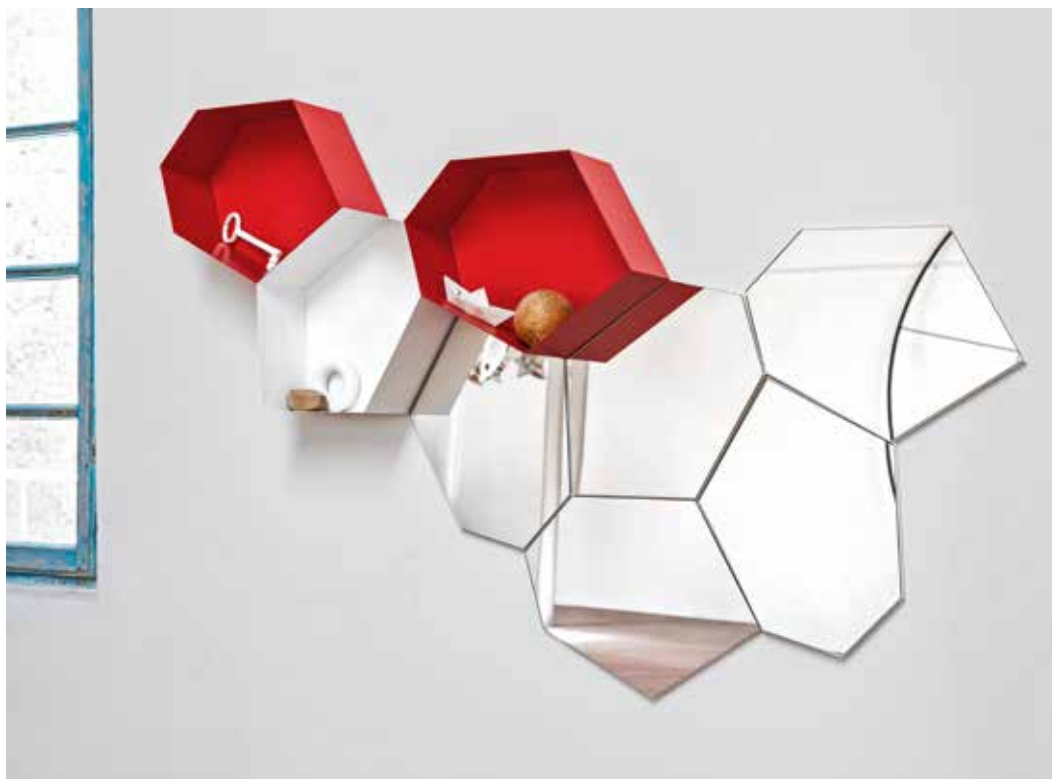

BAKU
DESIGN: PIO E TITO TOSO

— Inspired by the '60s, the Baku table lamp has sinuous shapes which completes with ironic sobriety the design of the living room or bedroom.

MOSS
DESIGN: BUSETTI GARUTI REDAELLI

— Quick change! Moss is the mirror with container that with its irregular pattern will help to make environments fresh and vibrant.

MAROCCO / ARABIA / AFRICA
DESIGN: MATTEO CIBIC

—
A collection of rugs that evokes distant scenarios with evocative wefts and seductive colours that brings to the centre of metropolitan living rooms essences of amazing places.
