

EMU, which has been making garden furniture for 60 years, mainly in steel (but also in wood, synthetic Wicker and aluminum), is now dedicating the same attention to quality to the world of fabrics and outdoor cushions, in collaboration with the Chiaramonte e

Marin design studio, its main partner in this project. Just like with computers, where hardware is the physical medium for the creativity expressed by the Soft Ware, in garden furniture Hard Ware (EMU's solid furniture) now provides the support for the softness of

the Soft Ware collection: personalized fabrics, colors, patterns and weaves that add a further touch to the furniture, improving comfort and allowing a nearly endless combination of colors and personalized styles.

EMU Soft Ware products are made entirely in Italy, using the highest quality Italian materials: fabrics designed exclusively for EMU, made from mass-dyed acrylic, providing excellent resistance to sunlight and weather for unlimited outdoor use.
