53-Canvas is a vibrant woollen upholstery fabric. Particularly well-suited for large surfaces thanks to its pronounced structure, it features a soft weave and an expanded palette inspired by the landscapes of Skagen, Denmark. The melange yarn used to craft Canvas combines three colours with six hues in every colourway. Consequently, the

fabric offers exceptional colour richness and an intriguing expression. From a distance, it has the calm surface of a unicoloured textile, but at a closer glance it shimmers with colour nuances, delicate contrasts as an elegant structure emerges.
