61-Teddy is made through the use of jacquard looms that allows to create the characteristic weave of this article. This type of weave creates an irregular surface that masks the classic orthogonal weft and warp effect typical of fabrics.

The wool blend weft yarn used enhances this effect even more making it three-dimensional, "swollen", intertwining with a fine warp composed of two yarns: one smooth in cotton and one "flaming", in viscose and linen that help to "move" visually the fabric.

Composition: VI 34% - PC 33% - WO 17%
 PL 8% - LI 4% - CO 4%
 Weight: 940 +/- 5 gr/m²
 Width: 138/140 cm
 Repeat: None

Care instructions:

Abrasion strenght	EN ISO 12947-2	80.000 cycles Martindale
Pilling resistance	EN ISO 12945-2	5 Pilling Scale
Fire reaction tests	BS 5852 Source 0-1 Cigarette test / Match test California Technical Bulletin 117:2013 Section E Part 1 EN 1021 1-2 Senate Bill (SB) 1019
