

# Kartell SOFT

La gamma dei divani Kartell si caratterizza, oltre che per il design di alcune tra le più prestigiose firme internazionali e i materiali termoplastici altamente innovativi e certificati, per la sua estrema versatilità e l'ottimo rapporto qualità / prezzo. A questo si aggiunga che tecnologia e ricerca hanno consentito a Kartell, per prima nel settore design, di produrre in serie ciò che è sempre stato realizzato artigianalmente e di saper superare attraverso progetti di qualità i preconcetti legati alla rigidità della plastica.

I divani Kartell uniscono così innovazione, senso estetico e funzionalità che, con linee semplici e lineari, rendono i pezzi contemporanei, eleganti e raffinati oltre che confortevoli e indistruttibili. Inoltre, le sempre più vaste varietà di rivestimenti e colori aumentano ulteriormente la multifunzionalità e la flessibilità di utilizzo dei divani Kartell conferendogli una propria personalità e rendendoli adatti a ogni tipologia di ambiente.

La gamma dei divani per interni Kartell è costituita dalle diverse versioni di divani e poltrone Pop e Plastics di Piero Lissoni.

Pop è il primo divano modulare "ripetibile all'infinito", pensato sia per un più convenzionale contesto domestico sia per un utilizzo contract. Facilmente smontabile, realizzato con tecnologia industriale, Pop è composto da moduli uguali monoposto accostabili l'uno all'altro. Infiniti sono anche i rivestimenti proposti sia per l'indoor, che si arricchisce oggi anche di una serie di proposte di tessuti Missoni per chi non vuole rinunciare a un tocco di moderna vivacità in casa, sia per la versione Pop Outdoor grazie al nuovo tessuto Ikon in grado di resistere all'esterno con qualsiasi condizione climatica, offrendo un'ottima tenuta ai colori e una buona resistenza all'acqua, all'abrasione e allo sfregamento. La linea Pop si completa con la variante Pop Duo dal doppio cuscino sulla seduta e cuscini laterali, che lo rendono morbido, avvolgente e ancora più comodo.

Plastics è un sistema di sedute modulari i cui elementi semplici e lineari possono vivere singolarmente o essere composti in forme diverse dando vita a infinite soluzioni ideali per il contract. Infine Plastics Duo, un vero e proprio divano da casa, comodo e morbido, elegante ma facile, disponibile in tre diversi modelli: seduta con schienale, versione con bracciolo a destra e con bracciolo a sinistra.

La gamma degli imbottiti si completa con il divertente divano Trix, sempre firmato da Piero Lissoni, che può essere un originale pouf per due persone, trasformarsi in un confortevole letto, una comoda chaise-longue e un'accogliente poltrona.

Come per tutto il catalogo Kartell, anche divani e poltrone rappresentano un connubio perfetto di design e materiali innovativi che, con soluzioni sempre originali, colorate e vivaci, pongono l'accento ed esaltano le qualità espressive e la versatilità della plastica.

The range of Kartell sofas is characterised not only by the design of some of the most prestigious international signatures and the highly innovative and certified thermoplastic material used but also by its extreme versatility and the excellent quality/price ratio. In addition its technology and research have allowed Kartell, first in the design field, to produce in series what had formerly always been done only by hand and the quality of its designs enabled it to overcome preconceived ideas about the rigidity of plastic.

Kartell's sofas bring together innovation, an aesthetic sense and functionality which with simple straight lines make the pieces contemporary, elegant and sophisticated as well as comfortable and indestructible. What's more, the increasingly vast variety of upholstery materials and colours further increase the multi-functionality and flexibility of the Kartell sofas and endow them with their own personalities so that they can fit into any type of setting.

The range of Kartell sofas for interiors consists of the various versions of Pop and Plastics sofas and armchairs by Piero Lissoni.

Pop is the first "infinitely repeatable" modular sofa created for the more conventional domestic setting and for contract use. Easily taken apart and produced using industrial technology, Pop consists of identical single seat modules which can be put together. The upholstery material possibilities are infinite both for indoors which offer yet another series of proposals of Missoni fabrics for those who will not do without that touch of modern vivacity in the home and for the Pop Outdoor version with the new Ikon fabric which performs well outdoors in any climatic condition with fast colours and is resistant to water, abrasions and rubbing. The Pop line is complemented by the Pop Duo variant with double seat and side cushions which make it soft, roomy and more comfortable than ever.

Plastics is a modular seating system and its simple and linear components can stand alone or combine in various shapes to offer an infinite variety of ideal solutions for contract seating. Lastly Plastics Duo, a veritable sofa for the home, comfortable and soft, elegant but easy, comes in three different models: the seat with back, the right arm version and the left arm version.

The range of upholstered pieces includes the amusing Trix sofa also signed by Piero Lissoni which can be an original pouf for two people and can convert into a comfortable bed, a comfy chaise-longue or a cosy armchair.

Just as for all the Kartell catalogue, the sofas and armchairs are the perfect alliance between design and innovative materials with original, colourful and lively solutions that place the accent on and enhance the expressive qualities and the versatility of plastic.
