Ispirato ai materiali da costruzione, il tavolo da pranzo Perch è caratterizzato da quattro gambe inclinate, realizzate in acciaio pressopiegato, che sembrano appoggiate casualmente sul trave centrale, che ha la capacità unica di creare un lungo tavolo indipendente. I tavoli sono disponibili in varie lunghezze, colori e finiture di top.

Inspired by construction and building materials, the Perch dining table is characterized by four bent steel slanted legs that look as if they are leaning casually on the central beam, which has the unique ability of creating a long freestanding table. Una mensola si curva e si posa sul piano dello scrittoio, fungendo da superficie d'appoggio ed al contempo ricreando uno spazio sottostante facilmente accessibile, ideale per riporre documenti, libri, computer portatile o altri piccoli oggetti. La presenza dello specchio regolabile svela l'ispirazione al classico mobile toilette, rivisitato ora in chiave contemporanea tramite l'utilizzo di materiali senza tempo, come il legno del piano ed il cuoio che riveste il ripiano.

A bend shelf lying on the plan of the desk, acting as a bearing surface and at the same time recreating an easily and accessible space underlying, ideal for storing documents, books, laptop or other small items. The presence of the adjustable mirror reveals the inspiration to classic dressing table, now revisited in a contemporary way by using timeless materials, as wooden for the plan and the leather that covers the shelf.

Une étagère se courbe et elle se pose sur le plateau du bureau, en servant de surface d'appui et au même temps en créant une place sous-jacente accessible, idéal pour remettre documents, livres, ordinateur portable ou autres petits objets. Le miroir réglable s'inspire à le meuble toilette. Maintenant il a été revisité par la jouissance de matériels sans temps comme le bois du plateau et le cuir qui rhabille l'étagère.

Eine gebogene Konsole ruht auf der Schreibtischfläche und kann als Ablage genutzt werden. Unter ihr finden leicht zu erreichende Unterlagen, Bücher, Laptops oder andere kleine Gegenstände Platz. Der verstellbare Spiegel verweist auf den klassischen Frisiertisch, welcher nun in moderner Version und durch Verwendung von zeitlosen Materialien wie Holz und Leder neu interpretiert wird.

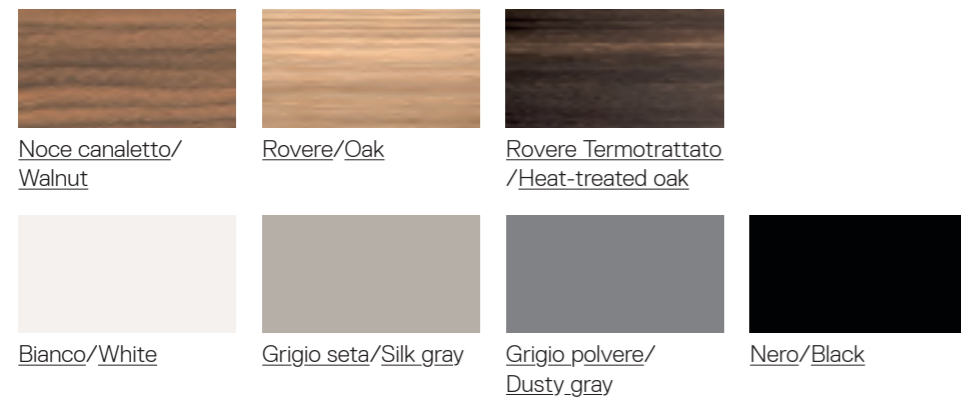

Un estante que se curva y se sitúa sobre la encimera del escritorio, actuando como superficie de apoyo y al mismo tiempo creando un espacio abajo fácilmente accesible, ideal para colocar documentos, libros, ordenadores portátiles u otros objetos pequeños. La presencia del espejo regulable desvela la inspiración al clásico tocador, pero con clave de contemporaneidad mediante la utilización de materiales atemporales como la madera de la encimera y el cuero que reviste el estante.
