Le laccature utilizzate non presentano problemi di durata: basta evitare graffi e urti contro oggetti particolarmente duri e spigolosi. Il vetro è colorato solo sulla faccia posteriore sia nei vetri laccati coprenti mono e bicolore che nei vetri acidati laccati. La tonalità dei campioni proposti è indicativa e non va pertanto intesa in senso restrittivo; può infatti differire leggermente in conformità ai margini di tolleranza riconosciuti per i materiali impiegati. I materiali impiegati possono essere puliti tranquillamente solo con acqua oppure con un detergente neutro. Evitare l'uso di abrasivi, acidi o reagenti chimici. Il vetro è interpretato attraverso la sua trasparenza, pertanto la conformità al campione può differire a seconda della superficie e degli spessori impiegati. Un esempio lampante è dato dal vetro extrachiaro che nei campioncini si presenta completamente neutro ma che nei piani di dimensioni maggiori e con spessori più consistenti assume sfumature azzurro/verdi. Per tale ragione vi preghiamo anche di segnalare con particolare attenzione articoli che debbano essere affiancati o facenti parte di una stessa commissione.

La finitura bicolore consiste nella doppia laccatura nella parte interna della lastra di vetro. La prima laccatura, visibile attraverso la trasparenza del vetro, è disponibile nelle categorie A-B-C-D. La seconda laccatura, visibile internamente, equivale al colore pastello opaco utilizzato per ottenere le finiture di cat. A-B. Vi facciamo presente che in questo caso l'effetto finale differisce da quello creato dalla medesima laccatura attraverso il vetro, in particolare nei colori tenui.

The lacquer used for our furnitures is extremely durable as long as you avoid scratching it or bumping particularly hard/sharp objects against it. The glass is lacquered on the back side only both for the mono or two-tones lacquered glasses and for the frosted lacquered. The shade of the samples is only indicative and has not to be taken as restrictive. It can infact slightly differ in conformity to the tollerances recognized for the materials used. All the materials we used can be easily cleaned with water only or with a mild detergent. Do not use abrasive materials, acids or harsh chemicals. The glass is interpreted through its transparency. Therefore the conformity to the sample might differ according to the surface and the thickness used. To give you a clear example, the extralight glass is completely neutral in the small samples but it assumes a light blue/ greenish shade when used on bigger or thicker tops. For this reason we beg you to indicate carefully those articles which have to be placed side by side or which are part of a same commission.

Two-tones finish consists of a double lacquering on the internal part of the glass sheet. The first lacquering, which is visible through the transparency of the glass, is available in the finishes of cat. A-B-C-D. The second lacquering, which is visible internally, is the same of the mat pastel used to get the finishes of cat. A-B. Please be informed that the final effect is different from the one created by the same lacquering through the glass, particularly in soft colours.

Les laques utilisées ne présentent pas de problèmes de durée. Il faut seulement éviter les rayures et les chocs avec tout objet particulièrement dur ou pointu. Le verre est laqué uniquement sur sa face postérieure (dessous) avec une laque opaque soit mono ou bicolore laissant l'aspect d'un verre translucide dessus. Les tonalités des échantillons fournis sont seulement et toujours indicatives, ne peuvent et ne doivent être considérée de manière restrictive. Elles peuvent aussi différer selon les matériaux utilisée. Les matériaux utilisés peuvent être nettoyés en toute sécurité en utilisant uniquement de l'eau ou un détergeant neutre. Ne jamais utiliser de produits abrasifs ou de réactifs chimiques. Le rendu visuel du verre et de ses tonalités dépendent de sa transparence (verre normal ou extra light) et de son épaisseur. Pour exemple celui du verre qui est totalement neutre des échantillons (extra clair) il prendra une coloration bleu/vert plus ou moins foncée selon l'importance des ses dimensions et de son épaisseur. Veuillez informer vos clients de ces particularités et suivantes.

La finition laquée bi colore consiste en un double revêtement de laque superposé sur la face interne de la plaque de verre. Le premier coloris est celui visible au travers de la transparence du verre (le dessus). Il est disponible dans las catégories A-B-C-D. Le deuxième coloris est visible à l'intérieur (dessous), il est de tonalité Pastel mat et disponible dans les finitions des catégories A-B. Veuillez noter que le résultat final diffère légèrement de celui du même coloris (mono color) visible à travers le verre (dessus), en particulier pour les coloris pastels.

El acabado lacado es de larga duración, basta con evitar arañazos y golpes con objetos muy duros y angulosos. El cristal se laca únicamente por la parte inferior, ya sea mono color, bicolor o esmerillado lacado. La tonalidad de las muestras es indicativa por lo tanto podría haber variaciones debido a los márgenes de tolerancia convenidos y aceptados para los materiales empleados. Los materiales empleados pueden ser limpiados con agua o con un detergente neutro. Evitar la utilización de abrasivos, ácidos o reactivos químicos. El cristal está interpretado en base a su transparencia, por lo tanto la tonalidad de la muestra puede ser diferente al producto final en función a las medidas y espesores empleados. Un ejemplo muy claro es el cristal extraclaro que en la muestra aparece completamente transparente pero en las tapas de medidas y espesores mas grandes tiene un matiz azul/verde. Por este motivo rogamos nos señalen los artículos que deben estar arrimados o que forman parte de la misma comisión.

El acabado bicolor es un doble laqueado en la parte interior de la pieza de cristal. La primera laca, visible a través del cristal, está disponible en las categorías A-B-C-D. La segunda laca, visible internamente, es el mismo color pastel mate utilizado para obtener los acabados de cat. A-B. Les hacemos presente que en este caso el efecto final es diferente de aquello creado por la misma laca a través del cristal, en particular en los colores tenues.

I prezzi della collezione "Sovet Italia" sono resi noti dal presente listino e sono espressi in Euro IVA esclusa. Le proposte o commissioni d'ordine sono da intendersi sempre "salvo approvazione" di Sovet Srl. Nessun danno diretto o indiretto può essere richiesto per ritardata o mancata evasione dell'ordine. La merce viaggia a rischio e pericolo del committente se venduta "franco fabbrica". Eventuali contestazioni per rotture o danneggiamenti degli imballi devono essere segnalati sul documento di trasporto al momento dello scarico. Eventuali reclami per vizi o per qualunque altro motivo, devono pervenire nel termine di gg. 8 dal ricevimento della merce, a mezzo lettera raccomandata con ricevuta di ritorno. La validità formale di tale denuncia è subordinata al fatto che la stessa sia rivolta direttamente alla casa produttrice, e ciò anche in deroga all'art. 1745 del codice civile. Nessuna contestazione da parte del committente potrà in ogni caso giustificare rifiuti o ritardi nel pagamento: trascorso il termine sopraindicato non saranno ammesse eccezioni di inadempimento o di risoluzione né domande riconvenzionali. Qualsiasi reclamo non sarà procedibile se non previo pagamento dell'intero prezzo di tutte le fatture ancorché non scadute. Non si accettano resi di merce se non preventivamente autorizzati da Sovet Srl. Anche in caso di contestazione di qualsiasi genere, Sovet Srl ha diritto di richiedere l'integrale pagamento della fornitura con l'addebito degli interessi calcolati al tasso bancario vigente maggiorato di 5 punti entro il limite massimo consentito dalla legge 7 marzo, n.108 - "disposizioni in materia di usura". Sono ritenuti validi soltanto i pagamenti effettuati direttamente a Sovet srl. La merce rimane, fino al totale suo pagamento, di proprietà di Sovet srl, che ha facoltà di ritirarla. Il materiale consegnato deve essere conservato a cura del cliente in ambiente idoneo. In particolare, l'ambiente di conservazione deve essere asciutto (basso tasso di umidità), ed il materiale deve essere protetto dall'acqua e dai raggi solari diretti. Sovet Srl declina ogni responsabilità per l'errato montaggio in loco dei suoi oggetti d'arredamento in difformità rispetto alle relative istruzioni di montaggio. Pur nel rispetto della legge in vigore sulla responsabilità da prodotto difettoso, decliniamo qualsiasi responsabilità in merito all'utilizzo improprio a cui il cliente destina i nostri prodotti rispetto alle specifiche definite. Non tutti gli articoli a catalogo possono essere utilizzati in luogo pubblico; contattare Sovet Srl per le autorizzazioni del caso. Rimane a carico del rivenditore valutare la conformità del prodotto alle leggi vigenti nei paesi di destinazione (per il corretto impiego del prodotto raccomandiamo la lettura della scheda tecnica del prodotto). La conformità "al campione" sia per la prima che per le successive forniture non va intesa in senso restrittivo, giacché sussistono i margini di tolleranza di regola riconosciuti per i vari materiali impiegati. Sovet Srl si riserva di apportare modifiche strutturali senza obbligo di preavviso allo scopo di migliorare il prodotto. Ad ogni effetto legale o per qualsiasi controversia derivante dal rapporto, il foro competente è quello di Treviso. Agli ordini pervenuti saranno applicate le condizioni di vendita, lo sconto, le spese di trasporto e l'eventuale maggiorazione per imballo su cassa in vigore all'atto dell'acquisizione dell'ordine, salvo diversa approvazione di Sovet Srl. Articoli, misure, colori disponibili sono solo quelli riportati nel presente listino prezzi, altre misure e finiture su richiesta.

Prices of "Sovet Italia" collection are published in this price-list for the general public. They are expressed in Euro, value added tax (VAT) excluded. Proposals or order commissions are always "excepting approval" of Sovet Srl. Delivery terms specified in any document or statement shall be merely for guidance. Our company is not liable for missing merchandise or breakage. Goods travel at purchaser's risk if sold 'ex works'. Possible objections for package breakage or damage must be made to the shipper or carrier and have to be marked on the delivery note, when unloading. Possible claims for defects or any other reason must be sent to our headquarter within 8 days from receipt of the goods by registered letter with return receipt. The formal validity of this complaint is subjected to the fact that the same claim must be directly addressed to the manufacturer, even derogating article no.1745 of the Italian civil code. Any objection of the purchaser may not justify payment refusals or delays: once the 8 days term expires, Sovet Srl will not accept any exception for default, resolution or counterclaims. No returns of merchandise shall be accepted unless they have been previously authorized in writing by the company. Possible claims will be closed only after the payment of the total amount of all invoices, even not expired. In case of claims Sovet Srl always has the right to require the total payment of the goods plus the charge of the related interests on the arrears (considering the relevant banking rate increased of 5 points and within the maximum limit admitted by law no.108, dated 7th March, "anti-usury dispositions"). Payments must be made directly to Sovet Srl and they are the only valid. Goods remain of Sovet's property until Sovet Srl receive the full payment of the invoice; until that Sovet Srl can collect the goods any time. Delivered goods shall be stocked by the customers in a suitable place; in particular, the warehouse should be dry or with a low rate of humidity, and the merchandise shall be protected from water or direct sun rays. Sovet declines any responsibility for incorrect assembly in loco for furnishing articles. Even following the relevant rules about the responsibility in case of defected merchandise, Sovet Srl refuses any responsibility concerning the incorrect use of its goods. The conformity to the samples both for the first and the following deliveries has not to be intended in a restrictive sense, because of the tolerance margin normally admitted for the different materials employed. Not all the articles of the catalogue can be used in public places; please contact Sovet Srl for authorisation. It is the retailer's responsibility to evaluate the conformity of the product to the laws in force in the country of destination. (for a proper use please read the technical data sheet of the product). Measures or colours are indicative since it is technically impossible to keep these perfectly constant over a period of time. Sovet Srl reserves on his own, to apport structural variations, without obligation of notice them. The court of Treviso shall have jurisdiction over any disputes. The delivery terms, the discount, the freight charges and the possible surcharge for the packaging on wooden crate which would be applied to the orders will be the ones in force at the order receipt. Available articles, measures and colours are contemplated in this price-list. Other sizes and finishes can be required.

Aucune contestation de la part de l'acheteur ne pourra justifier un refus ou retard de paiement. Passé le délai susmentionné, aucune exception de non-respect des clauses ou d'annulation ne sera admise. Aucune réclamation ne sera prise en compte avant le paiement intégral de toutes les factures y compris celles non échues. Aucun retour de marchandise ne sera accepté sans autorisation préalable de Sovet Srl. La marchandise livrée doit être conservée par le client dans un lieu adéquat. En particulier, l'endroit devra être sec (faible taux d'humidité) et la marchandise protégée de l'eau et des rayons directs du soleil. Sovet Srl se réserve le droit d'apporter des modifications structurales dans le but d'améliorer ses produits, sans obligation de préavis. A tous les effets légaux, et/ou pour toute controverse dérivant du rapport de travail, le seul tribunal de Treviso sera compétent. Les conditions de vente, la remise, les frais de port et l'éventuelle augmentation pour l'emballage en caisse en bois seront celles en vigueur au moment de l'acquisition de la commande, sauf diverse approbation de Sovet Srl.
